OBJECTIVE

Hi, I am an enthusiastic computer geek who loves technology, pursuing my final years in computer science with an overall GPA of 3.7. I believe a small idea with proper implementation can change the world. I never get tired of learning new things related to computer technologies. My interests are Blockchain, Machine Learning, and AI and Software Development.

| • Machine Learning | • Android Development | • JavaScript | • Python |
| • Full Stack Development | • Deep Learning | • Data Science | • Content Writing |

WORK EXPERIENCE

IIY Software , Mohali (India)

Android App Developer , Jun 2019 - Apr 2020

The company is a Software Development Company that builds mobile applications and web applications for various individuals or Software Companies. During the internship, I built 4 applications where I lead a team of 4 developers for 1 Institute project. Also, I worked as a front-end developer for the project of thapar.edu

SpanishB , Spain (Remote work)

Software Developer , Dec 2019 - Feb 2020

The company is helping people to learn Spanish with the help of Software with many learning features. The software uses NLP and Deep learning to interact with Spanish learner. I worked as a Software Developer where I had to work on a windows application with a team of 3 developers along with that I helped building a speech synthesis modal using Deep Learning.

Fiverr , Online

Freelancer , Oct 2018 - Nov 2020

I was working as a part-time freelancer for more than 2 years. So far I have completed 56 Projects and received a Level 2 Badge from Fiverr.com.

DBATU , Raigad (India)

Research Intern , Feb 2021 - Present

I am working as a part-time Research Assistant under the Dr. A. W. Kiweleker in the field of Blockchain also I am working for building a decentralize file system for my University.

EDUCATION
